

1. Click on 'Install SIACAD Software' when the SIACAD 'Setup Options' appears.

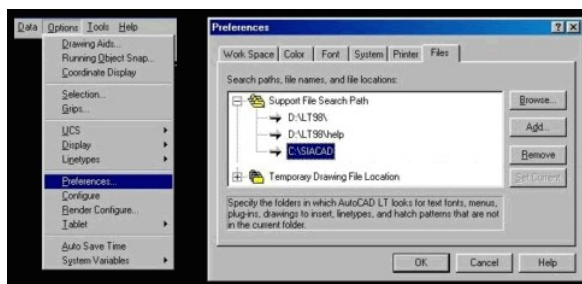

2. Double click on the preferred 'ACAD Version' to install SIACAD for AutoCAD. For AutoCAD 2010 and later versions, **Install Updates** immediately after you have installed SIACAD.

3. After SIACAD installation process has completed, please remember to click 'Activate License'.

4. Type in the 'Authorisation Code' when prompted. Take note that the code is in uppercase and consists of Alphabets only. Once the license is activated, **'Install Updates'** for the later versions of AutoCAD program.

5. Start AutoCAD. Click on 'Options' or 'Tools' menu to set the 'Preferences'. Click on 'Support File Search Path'. 'Add...' the folder 'C:\SIACAD'. Quit and restart AutoCAD.

6. After restarting AutoCAD, click on 'Tools' followed by 'Run Script...' and select 'all_acad.scr' to activate the SIACAD menu and Toolbars.
